

LIGHT SOURCE

Ingersoll Rand

Highlights of Light Source

Easy Handling

Integrated light weight 4 x 1000 W light source in the market

Weights less than a ton (978 kg)

One man operated, patented, fool proof winch system

Raising and lowering of tower takes few minutes only

Can with stand wind speeds upto 105 kph

Operational Flexibility

Fully extendable, 360 deg rotatable, tiltable tower

102 litres plastic fuel tank, for a week's non-stop operation

Patented extendable tower design

Technically Outstanding

Luminaries conform to NEMA 6 standards

Noise levels within permissible CPCB limits

Flicker free metal halide white light

Brushless maintenance free alternator

Constant power factor delivery

Specifications

MODEL	LS 5
Performance	
Luminare	4000 W
No of bulbs	4 Nos., 1000W each
Type of bulb	Metal Halide
Tower height	9 m
Engine	
Rating	11.3 HP@1500rpm
Make	Kubota
Model	D1105
Alternator	Single phase
Make	Mecc Alte SPA
Model	LT3-130/4
Frequency	50 Hz
Dimension	
Overall length	4445 mm
Overall width	1473 mm
Overall height	1800 mm
Gross weight	978 Kgs
